1.0 Introductions

Chairman Bill Gisseler called the meeting to order at 8:04am

2.0 Committee Organization and Procedures

- 2.1 Agenda was accepted
- 2.2 Minutes were accepted.
- 2.3 No Correspondence was received

3.0 Old Business

- 3.1 Review development of a power inductor standard there was no update from the users side – Were working with IBM, but Mike Lauri not in attendance at this meeting. Ralph Justus suggested tabling this item if there is no interest / input from the user side. No need to create work. Progress is held up for now
- 3.2 There was no update to the general inductor applications guide
- 3.3 Mechanical outlines group discussed standard footprints for surface mount power inductors. Request submission of outlines for P-4 from participating P-3 component suppliers. Carl Linquist has an outline from Mike Griffith for 0603

4.0 New Business and Opportunities

- 4.1 Carl asked if there is an idea how much interest there is in the inductor standards. Ralph hopes to search the standards database to determine how much use there is – sales of standards by responsible committee and will attempt to have this info before the next meeting

5.0 No additional topics or subjects were brought up for discussion

6.0 Next meeting to be held in Salt Lake City October 2008 and the following meeting (Spring 09) tentatively scheduled for New Orleans.

7.0 Adjournment
