Keith -

As Vice-Chairman of the EIA/ECA S-1 Passive Component Steering Committee, I would like to extend a warm "thank you" for your years of faithful service to the EIA/ECA P-Panel Engineering committees.

The S-1 committee owes a debt of gratitude to you for your role in organizing and starting the committee which began as the U-1 User's Committee. Not only did you play a key role in the committee's genesis, but you also continued to guide the committee as its Chairman for many years.

With this letter, the committee wanted to extend their feelings of gratitude to you as well as to wish you the very best of everything in your retirement and in all future endeavors.

We hope you will continue to keep us advised on your activities and please feel free to join us at any future EIA/ECA meetings as our "guest of honor".

Good luck in all your endeavors and "thanks" for your great contributions to the EIA/ECA P-Panel engineering group.

Best Regards,

Dave Richardson (on behalf of the S-1 Committee)
